

**UniMac**

**MAXIMUM PERFORMANCE  
IN TURNOUT GEAR CLEANING**

**FIRE GEAR CLEANING SOLUTIONS**

**RIE FIRE DISTRICT**

## **MUTUAL AID APPROACH WORKS FOR PPE CLEANING AS WELL**

In the world of firefighting, departments are never alone. When called to a large event that challenges their ranks, they call for mutual aid and neighboring fire departments will respond. The team approach of mutual aid keeps all parties safe and helps a fire department accomplish its goal of protecting citizens and property.

When it comes to cleaning PPE and keeping your firefighters safe, UniMac brings the equipment, systems, training and a variety of other resources in answering your department's call for mutual aid.

We'll design a total solution to help your department meet NFPA 1851 standards for cleaning bunker gear and provide the required documentation of the actions.

Your firefighters are not experts in laundry. Thankfully, UniMac is. When you call for mutual aid, laundry expertise is just what we'll deliver.

## EXPERT RESOURCES = EXPERT SOLUTIONS

Partnering with UniMac to help develop a gear-cleaning solution brings a host of advantages to your department. It also delivers peace of mind that only a laundry expert can provide.

### INDUSTRY LEADER

UniMac not only maintains a prolific presence in the on-premises laundry industry, but we are a part of Alliance Laundry Systems – the global leader in commercial laundry...nobody else even comes close.

UniMac is fully invested in being part of the solution for cleaning gear and protecting firefighters; committing time and resources to the NFPA Research Foundation, multiple universities, and their research on “How Clean is Clean?”, Verified Independent Service Providers Association (VISPA) and others.

### EXPERT SOLUTIONS

High quality laundry equipment is just one part of the overall holistic approach to cleaning PPE. A full solution requires adopting technology to streamline documentation, working to fine tune wash cycles and partnering with chemical dosing experts.

UniMac and its skilled distributors will guide your department from equipment selection and installation all the way to processes and training.

## **INDUSTRIAL EQUIPMENT**

We all know the firehouse is a demanding environment for equipment. UniMac's industrial washers and PPE drying cabinets are designed for high performance under punishing demands.

Laundry equipment should never be just a purchase, but rather a long-term investment. You'll have peace of mind that your department's investment will answer the call for years to come...and that promise is backed by industry-leading warranties.

## **FIRST-CLASS RESOURCES**

Whether it's on-going training, product questions or fast service, UniMac, along with its network of authorized distributors are your go-to resources. They'll ensure a level of service and support that's unmatched.

No other laundry equipment manufacturer is as committed to the fire industry as UniMac. As NFPA 1851 guidelines evolve, you'll have a partner that keeps your department in full compliance and thoroughly supported beyond installation.

# CLEANER GEAR. SPOTLESS DATA. ZERO HASSLE.

Utilizing recognized processes to properly clean gear is just half of the NFPA 1851 equation. A true solution includes flawless record-keeping.

UniMac's FireLinc™ system gives departments a high-power tool that makes record keeping as simple as a few button pushes and a scan of the PPE's bar code. Best of all, data is safely stored in the cloud and easily accessible from the app, ensuring your department always has a record that verifies staff is washing gear in accordance with established procedures.

## FireLinc™

**SORT BY EQUIPMENT ID,  
LOCATION AND WHO  
COMPLETED WASH**

**SEE WHAT MACHINE - AND  
WHICH CYCLE - WAS USED**

**EXPORT WASH HISTORY  
TO SPREADSHEET FOR  
EASY AUDITING**

**SYNC WITH YOUR  
INVENTORY  
TRACKING SYSTEM**

# THE FIRELINC™ ECOSYSTEM

# UW POCKET HARDMOUNT WASHER-EXTRACTORS

For the ultimate in cleaning and ease of use, the UW range of washer-extractors deliver. The UniLinc™ control employs a graphical display and real words to ensure every member of the department selects the proper cycle, while OPTIspray™ offers next-level rinsing to force dangerous contaminants off the load and down the drain.

## UNILINC™ CONTROL

Intuitive Full Color Display

## CUSTOM FIRE INDUSTRY

Pre-Programmed Cycles

## NFPA 1851 COMPLIANT

## FIRELINC™

## TEMPERATURE CONTROLLED FILL

for Safe and Effective Washing of PPE

## 100 G-FORCE SPIN SPEED

for Safe and Effective Washing of PPE

## FASTER

Cycle Times

## OPTISPRAY™

Rinsing Technology

## INDUSTRIAL

Built to Last with Constant Use

## OPTIspray™

OPTIspray™ is a next-generation technology designed to force dangerous contaminants off of the load and down the drain. The spray rinse carries away dirt and chemicals and leaves less residue behind (22% less compared to the nearest competitor) – providing far superior rinse results, and fewer carcinogens left on gear.

# UC CABINET HARDMOUNT WASHER-EXTRACTORS

UniMac's UC washer-extractors offer our same legendary durability and performance for departments logging fewer calls. The UC features a simple touch-pad control and custom cycles for PPE cleaning.

## M9 CONTROL

Touch Pad w/ 7-Segment LED Display

## CUSTOM FIRE INDUSTRY

Pre-Programmed Cycles

## NFPA 1851 COMPLIANT

## 180° DOOR OPEN ANGLE

for Easy, Unobstructed Access

## NFPA 1851 COMPLIANT

# UNIMAC® WILL ANSWER THE CALL TODAY...TOMORROW...INTO THE FUTURE

You've assembled a firefighting team that's built on trust. Each member of the department is trusted to serve and protect not only your citizens, but their fellow firefighters. That's the bond all in the fire service share.

UniMac stands equally ready to protect your department with equipment, systems, training and a variety of other resources to deliver PPE that's not just cleaned to NFPA 1851 standards, but also with the required documentation.

Nobody is as fully invested as UniMac with the resources, processes and experience to help your department comply with NFPA 1851 standards.
